Golasso Sports Tournament Brackets with Automatic Scrolling Display

This Windows® software allows you to process sports tournaments similar to the NCAA Basketball Tournament. Process tournaments with as many as 128 competitors. View and print results on bracket gridlines. Your PC monitor can be set to automatically scroll through all of your stored brackets.

How to Order Golasso Sports Tournament Brackets

Our software is sold through our Shopify Webstore. Shopify accepts all major credit cards. After your payment is approved, you will receive an email with a download link to an executable containing an Install Wizard to guide you through installation. **The software requires no internet connection and is free of all advertising**. **There are no annual renewal fees.**

Tournament Sizes

The software maintains up to 18 brackets simultaneously and creates brackets with 4, 8, or 16 slots. For events with 32 slots, create four 8-slot brackets and one 4-slot bracket for the winners of the 8-slot brackets. For events with 64-slots, create four 16-slot brackets and one 4-slot bracket for the winners of the 16-slot brackets (NCAA Basketball Format). For events with 128 slots, set up eight 16-slot brackets and one 8-slot bracket for the winners of the 16-slot brackets.

Options for Entry of Scores

Option 1: Enter the score of each team in their yellow score box. The software will advance the team with the higher score to the next round. Option 2: Enter the match result in the yellow box of the winner and leave the yellow box of the loser blank. This method is best for golf match play tournaments.

Using the Software for Score Entry in Various Sports

Sport	Option 1	Option 2	Option 2 Examples
Basketball	Yes	No	
Football	Yes	No	
Baseball	Yes	Yes	7-1, 4*-3
Soccer	Yes	Yes	3-0, 1*-1
Hockey	Yes	Yes	5-2,4*-4
Golf	No	Yes	3&2, 1Up, 21Ho
Tennis (Sets)	Yes	Yes	2-0, 2-1, W/O

TIE GAMES with SHOOTOUTS. If a game ends in a tie and there is a shootout to determine the winner, enter the tie score but you must insert an asterisk (*) after the score of the shootout winner.
OVERTIME GAMES: You can also place an asterisk after a score to indicate a game went into overtime.
WALKOVERS: Enter W/O in the yellow box of the winner and leave the opponent yellow box blank.

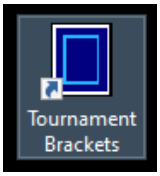
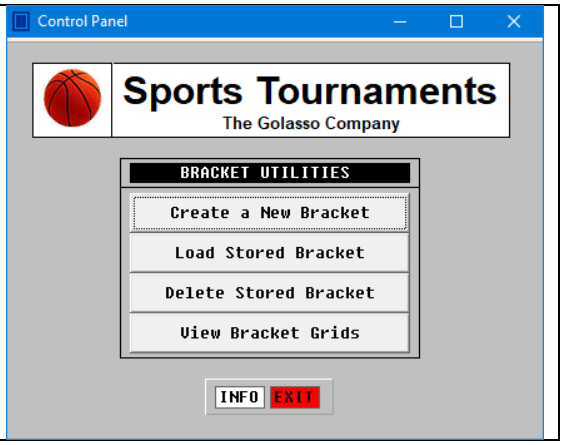
The Control Panel

A blue Golasso icon will appear on the desktop after software is installed. Click on it to open the Control Panel and select a utility.





Creating a New Bracket

On the Control Panel, click CREATE A NEW BRACKET and the window below will appear. Select the Bracket Size. First Round Games can be entered manually or in the alternative, enter the seeds of the players and the software will set up the First Round games based on seeds. If a competitor has a first-round bye, enter BYE as the opponent's name.

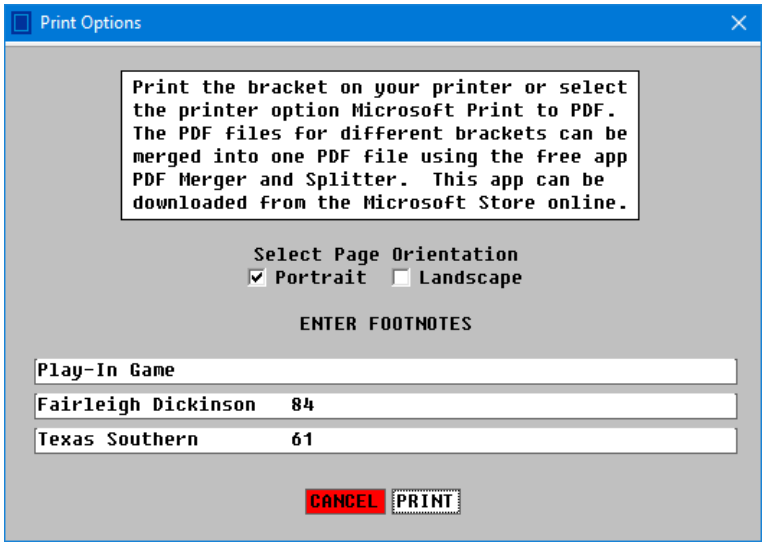
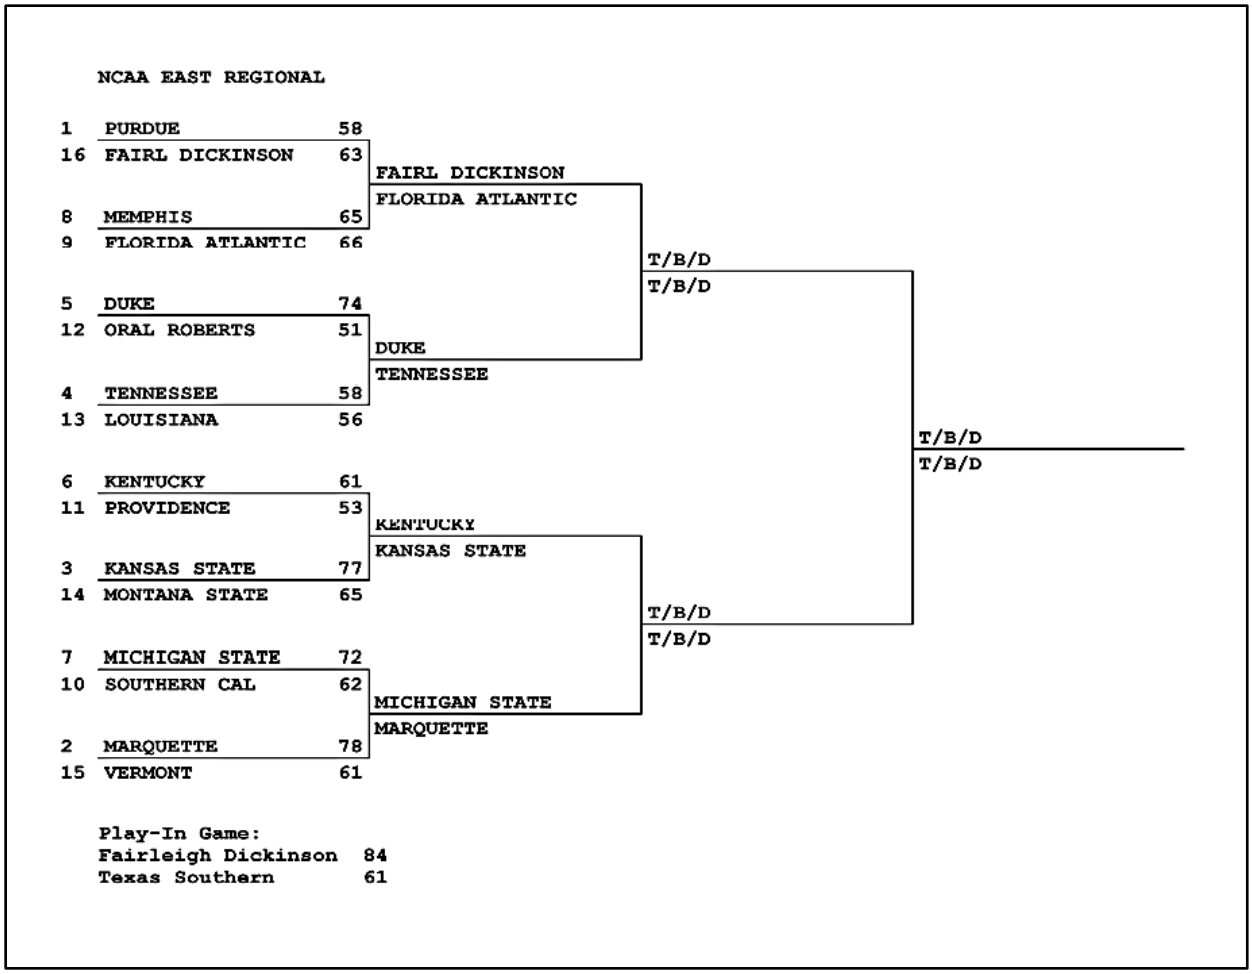
Printing the Bracket on Gridlines

Load the desired bracket and click the GRID PRINT button. The Printer Setup Window will appear as shown below. The printout can include up to three lines of text at the bottom of the bracket grid. In the example below, the results of the Play-In Game for the East Regional were entered as text.





Creating the Final Four Bracket

After the four Regional Brackets are completed, select CREATE NEW BRACKET on the Control Panel and set up a 4-slot bracket as shown below. Enter the names of the Regional winners in this bracket.

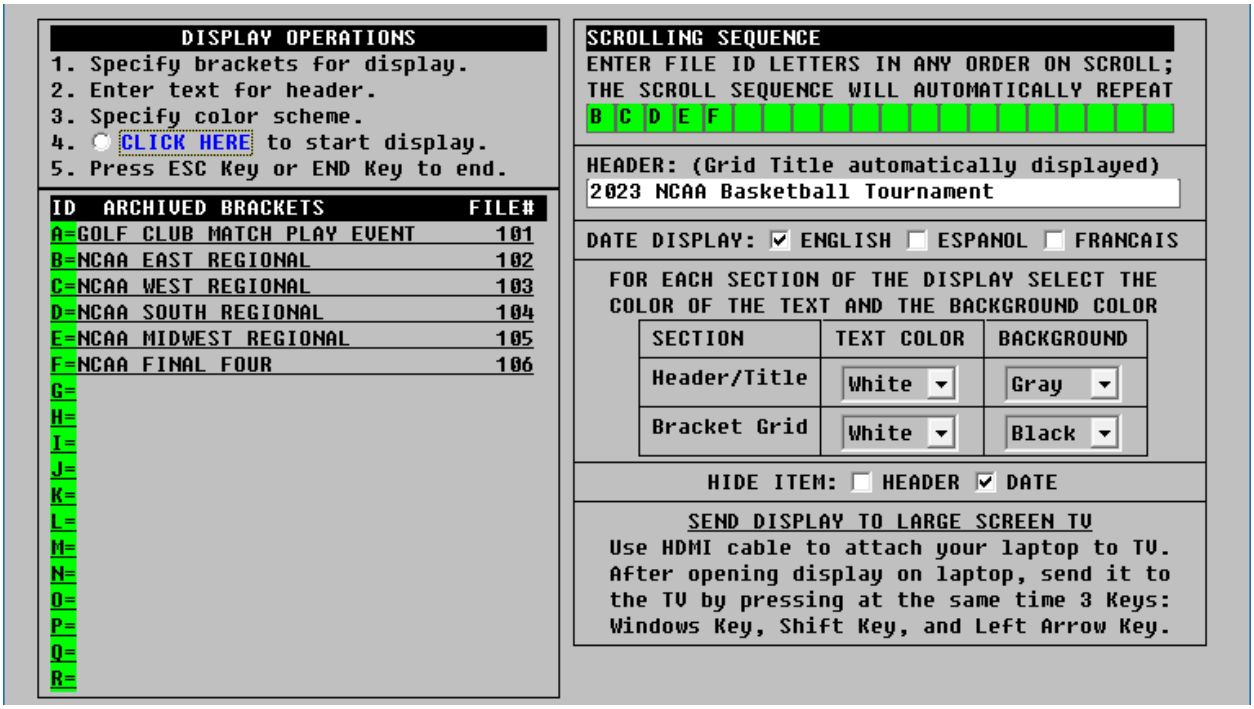
Using the Automatic Scrolling Bracket Viewer

Click VIEW BRACKET GRIDS on the Control Panel and the Viewer Setup Window appears as shown below. Set up the automatic scrolling sequence. For the NCAA Tournament, enter B, C, D, E and F for display. The Title of a bracket is automatically displayed. The display can also have a Header. For the NCAA Tournament, enter a Header of "2023 NCAA Basketball Tournament" as shown below. Select the color scheme for the display, choosing a text color and a background color from the drop-down list. The time and date can be displayed, if desired, in English, Spanish or French.



When the display is opened the first bracket on the Scrolling Sequence will appear as shown below.

After about 20 seconds, the next bracket will appear. After scrolling through all the brackets, the display will automatically return to the East Regional and start the scrolling process again.
